DETAILED ACTION

1. Applicant's Amendment filed on January 29, 2003 in response to the Examiner's Office Action has been reviewed. Claims 37-38 have been amended.
2. Claims 1-38 are presented for examination.
3. Claims 1-36 are allowed.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 14, and 18 recite the limitation "said traditional calculation methods" in claim 1, lines 20, claim 4, lines 12-13, and claim 18, lines 12-13. There is insufficient antecedent basis for this limitation in the claims.

5. The following is an Examiner's Statement of Reasons for Allowance:

The prior art of record fails to teach or suggest individually or in combination **a method for refining the calculation of relevance of a resource by providing, to a user a means for creating multiple profiles consisting of various demographic and psychographic data and**

then calculating the relevancy coefficients based on said user rating of said result and said profile record of said user, as modified by said user of a resource based on a particular query as set forth in independent claims 37 and 38.

The closest prior art, **Herz et al.** US Patent No. 6,020,883 teaches a system for assisting customers to select resources based on the customer's objective profiles. The closest prior art fails to anticipate or render Applicant's limitations above obvious.
